

Japanese Exhibitors

Updated as of September 25, 2017

Company Name (in English)	Company Name (in Japanese)	Post-code	Address	Business Category(s)	Main Merchandise (products or services)	Company Web-Site
Aitronix Corporation	株式会社アイトロニクス	663-8022	9-69, Hino-cho, Nishinomiya-shi, Hyogo	Mechanical equipment	Electrical discharge machine	http://www.aitronix.co.jp/
AQUA MACHINERY CO., LTD.	株式会社アクア機械工業	938-0084	370 Ikuji-ashizaki, Kurobe-shi, Toyama	Robot industry	Design and manufacture of robotic system, automatic assembly machine and labor-saving machine Sales of universal robots and peripheral equipment	This company does not have a website.
e-system, Inc.	株式会社イーシステム	939-8006	391-1 Yamamuro, Toyama-shi, Toyama	IT, creative industry	· Video production Production of TV commercials Production of videos for exhibitions Projection mapping · Development of interactive systems AR (augmented reality), MR (mixed reality) 3D CG tool "3De" Omnidirectional	http://www.esyst.co.jp/
IYAMASEIKI CO., LTD.	飯山精器株式会社	383-0053	1162-15 Kusama, Nakano-shi, Nagano	Machine elements, IT	· Production and sales of "IoT tool made by parts processing shop" which is schedule management software for parts processing industry. The status of your factory (plan - progress - achievements) can be checked on the web. · Manufacture and sales of monitoring system with simple operation which can be installed without remodeling the existing facilities. · We are experts of machining round shape parts! · Metal parts processing using complex automatic lathes and centerless cylindrical grinding machines. Our main work sizes are under Φ 20. We are especially good at production of small to medium lot from 1,000 to 10,000 pcs/ lot. · Processing of difficult-to-cut materials such as titanium, kovar. · Also our factory in Vietnam is in operation.	http://www.iyamaseiki.co.jp/
IXIS Inc.	株式会社イクシス	399-4601	2994-1 Naka-minowa, Minowa-machi, Kami-ina-gun, Nagano	Plastic products, prototype manufacturing	Prototypes using vacuum casting (hard / soft) Prototypes using 3D printers (optical modeling) Prototype by machining Decoration (chrome plating, painting, printing), etc.	http://www.ixis.co.jp
IKEDA METAL INDUSTRIAL CO. LTD	池田金属工業株式会社	550-0013	4-7-11, Shin-machi, Nishi-ku, Osaka-shi, Osaka	Machine elements, automobile industry, robot industry, aircraft industry, electric and electronics industry, aluminium products, pharmaceuticals, chemicals, wholesale/retail, food processing	Fasteners for industrial use such as screws, bolts, nuts, and metal processing parts. Tightening techniques such as "prevention of loosening", "repair and reinforcement of female threads", "axial force management of bolts"	http://www.ikekin.co.jp
