

Company Overview and Order Details No.1

Company name	AIO precision Co., Ltd		
Address	19-10-54 Higashijunichome, Hanamaki-shi, Iwate 19-10-54, 025-0015		
Capital stock (JPY)	175,340,000	Number of employees	529
URL	https://www.aio-precision.co.jp/		
Major products and machining services	<ul style="list-style-type: none"> • Mechanical parts for FA • Parts for metal molds • Parts for R&D and production engineering departments • Design, assembly, etc. of all varieties of jigs 		
What we want to order (products/processing)	<p>Machine processing of mechanical parts for FA and metal molds</p> <p>① Edged items From small to MAX 1 m x 2 m</p> <p>② Round items From $\varnothing 10$ to $\varnothing 600$, especially $\varnothing 250$ to $\varnothing 300$ compound lathe machining</p> <p>(machining up to cutting, grinding, wiring, electrical discharge, heat treatment, and surface preparation)</p> <p>Materials: Iron, stainless steel, aluminum, resin, NaK, HPM, etc.</p>		
Required facilities and personnel	MC, five-axis, NC, multifunction machine, electrical discharge, wiring, inside/outside circumference and flat grinding, etc.		
Desired characteristics, etc.	<ul style="list-style-type: none"> • Company that can work with us on deadlines, costs, and quality 		

Company Overview and Order Details No.2

Company name	ISUZU TECHNO.CO., LTD Tohigi Office		
Address	(〒) 329-4424 2691 Ohiramachihakuchu, Tohigi-shi, Tohigi		
Capital stock (JPY)	50 million yen	Number of employees	300
URL	http://www.isuzutechno.co.jp/		
Major products and machining services	<p><Facility construction machinery business></p> <ul style="list-style-type: none"> • Services from preventative maintenance and regular maintenance of all varieties of machinery, to overhaul work, and construction/movement of production lines 		
What we want to order (products/processing)	<p>For automotive-related production facilities Equipment design, manufacturing, and assembly (automatic transport equipment, conveyors, etc.)</p> <ul style="list-style-type: none"> • Machining facilities and assembly equipment for automotive parts mainly for Isuzu Motors Limited. • Integrated handling of processes from design to manufacturing and assembly based on specifications. Design required. <p>* Size of all equipment is around MAX 2 m x 3 m Jig design and manufacturing</p>		
Desired characteristics, etc.	Company that can meet the needs of customers (urgent response, short deadlines, etc.)		

Company Overview and Order Details No.3

Company name	Daimei Plastic Co., Ltd. Tokyo Office		
Address	(〒101-0047) Cosmo Bldg. 5F, 3-2-14 Uchikanda, Chiyoda-ku, Tokyo		
Capital stock (JPY)	¥98,000,000	The number of employees	290
URL	sato@daimei.jp		
Major products and machining services	Production of industrial plastic interior and exterior products and engineering plastic products, Production and sales of ultra-precision mold (design, prototype, product design, various molds, injection molding, various surface treatment, assembly, finished products, etc.)		
What we want to order (products/processing)	Resin molding and secondary processing ▪ Small lot (10 – 100/month), Large lot (50,000 – 200,000/month) ▪ Including super engineering plastic materials such as PEI, PPS, CF, etc. ▪ Only secondary processing is acceptable such as coating, plating, evaporation coating, printing, assembly, etc.		
Required facilities and personnel	Injection molding machine 110-1300T Vertical insert molding Up to 250T Cutting, Prototype testing equipment		
Desired characteristics, etc.	• Reliable partner with well-established quality control system to whom we can leave management • Licensing technology and suggestions of products can be considered		

Company Overview and Order Details No.4

Company name	Kubota Environmental Service Co., Ltd.		
Address	661-8567 Hyogo-ken, Amagasaki-shi, Hama 1-1-1		
Capital stock (JPY)	90,000,000	Number of employees	1,977
URL	http://www.kubota-ksk.co.jp/		
Major products and machining services	All varieties of plants including water purification plants, sewage treatment plants, sludge recycling plants, and garbage disposal plants		
What we want to order (products/processing)	<p>① Environmental plant design, plate working, machine processing (chute hopper frames, ducts, dampers, trommels, rotary valves, scrapers, dust collectors, etc.)</p> <p>② Environmental plant pipe fitting, inspection/maintenance services, and repair/remodeling work</p> <p>③ Crusher parts (plate working, machine processing, heat treatment, etc.)</p> <p>(1) Rotor: S35C SCM440 φ800×2800L 3.3 tons</p> <p>(2) Rotor housing: SS400, 1300×3100×1400H 2.5 tons</p> <p>(3) Housing: S45C tempered 150×700×520H 200 kg</p> <p>(4) Liner rail/plate: SS400, 700×1500×t30 190 kg</p> <p>(5) Fixed blade base: SS400, 200×300×t80 20 kg</p> <p>(6) Main shaft: SCM440 φ260×2000, 600 kg</p> <p>(7) Base frame: SS400, 2300×3400×1200H 3 tons</p> <p>(8) Screen: SS400HT60 (punched with bend) t12×980×1255, 70 kg</p>		
Required facilities and personnel	Set of plate working, welding, and machine processing equipment capable of the above		
Desired characteristics, etc.	<ul style="list-style-type: none"> • Must be able to work with us on deadlines, quality, and costs. • Should be able to handle everything from plate fabrication to on-site work for environmental plants (some work can be subcontracted). Major parts will generally be supplied for on-site work, and work will take place mostly in the surrounding area but also throughout the country, so construction work licenses are required. 		

Company Overview and Order Details No.5

Company name	KOKOKU RUBBER AKABANE FACTORY CO., LTD.		
Address	2-30-1 Akabanekita, Kita-ku, Tokyo, 115-0052		
Capital stock (JPY)	40,000,000	Number of employees	164
URL	https://www.kokoku-intech.com/		
Major products and machining services	All varieties of industrial precision rubber parts (automotive-related, electronics-related, OA-related, medical-related, machinery-related, other)		
What we want to order (products/processing)	<p>① Rubber parts for automobiles, OA equipment, and electronics</p> <ul style="list-style-type: none"> • Metal-molded rubber: Hoses, diaphragms, etc. • Extrusion-molded rubber: Sealing materials, etc. • Size: Various, from 10 mm □ unit to 1000 mm □ class • Quantity (lot): Various, from small lots to several thousand <p>* We will bring drawings or actual items on the applicable day.</p> <p>② Automotive-related pipe retention fixtures, etc.</p> <p style="padding-left: 20px;">Sheet metal machining: Generally press punching and bending</p> <p style="padding-left: 20px;">Lot: From several hundred to several 10,000s per month</p> <p style="padding-left: 20px;">Size, etc.: 20 mm W x approx. 50 to 200 mm</p>		
Required facilities and personnel	Kneader, roll, vulcanizing press, secondary vulcanizing oven, quick trim, curelaster, tension tester, densimeter, etc.		
Desired characteristics, etc.	<ul style="list-style-type: none"> • Appropriate quality control system • Capable of small lot production • Metal and rubber cure adhesion • Even better if you have some specialized technology 		

Company Overview and Order Details No.6

Company name	KOHWA PRECISION INDUSTRY Co., Ltd.		
Address	30-183 One Sakaecho,Toyoake-shi, Aichi 470-1167		
Capital stock (JPY)	50,000,000	Number of employees	186
URL	http://kohwa-grp.co.jp/		
Major products and machining services	Precision functional parts for automobiles, home appliances, semiconductors, medical-related, etc. (Cutting, grinding, resin molding)		
What we want to order (products/processing)	<p>Focused on automotive parts (EFP, INJ, ABS, A/C, semiconductor-related parts, suspensions, etc.)</p> <p>(1) Small item precision cutting parts Size: Up to around $\varnothing 50 \times 100$ mm Materials: S15C, S45C, C3604, SUS303, SUS304, SUS430, etc. Quantity: 10,000 to 100,000 per month (also 2,000 to 5,000 pcs.)</p> <p>(2) Resin molding (injection, insert) Molding machine (vertical/horizontal) 75 t to 250 t class, 50,000 pcs. per month</p>		
Required facilities and personnel	<p>(1) NC automatic lathe, NC lathe</p> <p>(2) Resin molding machine (vertical/horizontal) 75 t to 250 t</p>		
Desired characteristics, etc.	<ul style="list-style-type: none"> • Company with experience in automotive-related parts • Great if ISO9001, 14001 certified 		

Company Overview and Order Details No.7

Company name	SAKUMA SPECIAL STEEL CO., LTD.		
Address	33-1 Kitaumeda, Nawamachi, Tokai-shi, Aichi-ken 476-0002		
Capital stock (JPY)	360,000,000	Number of employees	191
URL	https://www.sakuma-ss.co.jp/		
Major products and machining services	<ul style="list-style-type: none"> • Sales and supply of special steel, high-alloy materials, next-generation materials, and machined parts (machine tools and automotive parts) 		
What we want to order (products/processing)	<ul style="list-style-type: none"> • Industrial machinery, for automobiles ① ø32 or larger, bar material cutting parts NC compound lathes ② Large drawing press parts Transfer presses, 500 t or larger ③ Resin molding parts Injection molding machines, from t to t ④ Forged parts Parts formers, 6 levels or more 		
Required facilities and personnel			
Desired characteristics, etc.	<ul style="list-style-type: none"> • ISO, etc. certified 		

Company Overview and Order Details No.8

Company name	SAHASHI-Steel. Co., Ltd.		
Address	1-33 Aburayacho Minato-ku, Nagoya-shi, Aichi, 455-0815		
Capital stock (JPY)	25,000,000	Number of employees	63
URL	http://www.sahashi-steel.co.jp/company		
Major products and machining services	<ul style="list-style-type: none"> • Sales of special steel materials • Machine processing parts • Friction welding parts 		
What we want to order (products/processing)	<p>① Plates S50C plated (Kanigen), MC #5 to #7 Dimensional tolerance: Company capable of handling tolerances based on dimensions after playing</p> <p>② General machine processing MC, NC lathe, multifunction machine processing Materials: SUS303, 304, iron, aluminum, etc.</p>		
Required facilities and personnel	All varieties of processors, machinists and inspectors		
Desired characteristics, etc.	<ul style="list-style-type: none"> • Conduct internal inspections and attach inspection forms prior to shipping. • Fair company, as independent inspection tools are also acceptable. 		

Company Overview and Order Details No.9

Company name	TAIYO MACHINERY CO., LTD.		
Address	4-1-7 Tsurumachi, Taisho-ku, Osaka-shi, Osaka, 551-0023		
Capital stock (JPY)	90,000,000	Number of employees	100
URL	http://omco-taiyo.co.jp/		
Major products and machining services	<ul style="list-style-type: none"> · Design, production and sales of various kinds of equipment machinery for large and small plants in foundries · Design, production and sales of sorting/recycling plants for industrial waste intermediate treatment plants 		
What we want to order (products/processing)	<p>1) Caned products (Can-making~Machining~Finishing), Stock tank, Duct, Frame, Screw conveyor, Bucket elevator, Belt conveyor, etc. Size: Up to 3m (can be carried by trucks), Board thickness: 3.2~12mm, Material: Iron</p> <ul style="list-style-type: none"> · Canning process, Temporary assembly, Coating, Shipping <p>2) Large vibratory machine unit (Can-making~Machining~Heat treatment~Finishing) and the attached stands, etc. Size: 2m~3m (can be carried by trucks), Board thickness: More than 9.0mm, Material: Iron</p> <ul style="list-style-type: none"> · From can-making, machining, assembly, coating until shipment of finished products <p>3) Installation of machinery equipment Contractor that can respond to business trip to neighboring prefectures</p>		
Required facilities and personnel	Overhead crane, Welding equipment, Roll bender, General-purpose lathe, Drilling machine, Milling machine, Boring machine		
Desired characteristics, etc.			

Company Overview and Order Details No.10

Company name	DUPLO SEIKO CORPORATION		
Address	353 Kodai, Kinokawa-shi, Wakayama 649-6551		
Capital stock (JPY)	32,000,000	Number of employees	207
URL	http://www.duplo-seiko.co.jp/		
Major products and machining services	Development and manufacturing of digital printers, multifunction cutters, mailing equipment, recycled paper production equipment, and labor-saving equipment for business use		
What we want to order (products/processing)	(1) Machine processing Round: Palm-sized (pins, shafts, etc.) Edged: Palm-sized up to 500 mm Materials: Iron, aluminum, SUS Quantity: 1 to 10 pcs. (repeat goods)		
Required facilities and personnel	Lathe, milling machine		
Desired characteristics, etc.	Company that is flexible		

Company Overview and Order Details No.11

Company name	DENKEN CO., Ltd.		
Address	688-2 Hasamamachionizaki, Yufu-shi, Oita, 879-5501		
Capital stock (JPY)	75,000,000	Number of employees	509
URL	https://www.dkn.co.jp/		
Major products and machining services	<p>Solar cell testers</p> <p>Research and development of applied electronic devices</p> <p>Semiconductor inspection apparatus</p> <p>Research and development of mechatronics products</p> <p>Various FA automatic measurement test equipment</p> <p>Research and development of wire heating element (Senmen Heater)</p> <p>Production and sales of medical and health related equipment</p> <p>Sheet metal, Machining</p>		
What we want to order (products/processing)	<p>Parts for various devices</p> <p>1) Machining Iron, Stainless-steel, Aluminum, Plastic</p> <p>Circle : ~Φ100</p> <p>Square : Enough to be carried by hands</p> <p>2) Processing of quenched difficult-to-cut materials</p> <p>3) Can-making~Machining MAX 2m×3m×1.2m Iron, etc.</p> <p>4) Sheet metal processing (including coating)</p> <p>MAX1 sq. meter t1.0 Iron, etc.</p> <p>※1) 2) MC,NC lathe、 Wire cut、 Surface polishing, etc.</p>		
Required facilities and personnel			
Desired characteristics, etc.	<ul style="list-style-type: none"> • Company with manufacturing experience of semiconductor-related products and other parts of FA equipment. • Partner company that is excel at high-mix low-volume production and short-period delivery. 		

Company Overview and Order Details No.12

Company name	Tomoe Works Co., Ltd.		
Address	2-4-24 Kinrakujicho, Amagasaki-shi, Hyogo, 660—0806		
Capital stock (JPY)	60,000,000	Number of employees	75
URL	https://www.tomoe-works.co.jp/		
Major products and machining services	Design, production and sales of special bolts and nuts Design, production and sales of special joint parts Design, production and sales of columns for liquid-chromatograph Design, production and management skills of materials used for bridge construction		
What we want to order (products/processing)	1) FCD Casting (Water pipe parts, Φ 100~500, Dozens~hundreds/lot) 2) Aluminum casting (Tools for water supply works, Size enough to be carried by hands, Around 100/lot) 3) Press working (SUS304CSP materials, Length: less than 300, Dozens~hundreds/lot)		
Required facilities and personnel	Facility capable to meet the above requirement		
Desired characteristics, etc.			

Company Overview and Order Details No.13

Company name	Nippon Koei Co., Ltd. Fukushima Office		
Address	(〒) 962-8508 1-22 Doukyuu, Morizyuku, Sukagawa-shi, Fukushima		
Capital stock (JPY)	7,480,000,000	Number of employees	2,397
URL	https://www.n-koei.co.jp/		
Major products and machining services	<ul style="list-style-type: none"> (1) Control panels for power stations and transformer substations (2) Water turbines and power generators for hydraulic power stations (3) Transformer-related equipment and parts for transformer substations 		
What we want to order (products/processing)	<ul style="list-style-type: none"> (1) Sheet metal and coating for control panels, assembly and wiring, electronic/electric components Control panel size: 700 W x 2300 H x 500 D [mm] (2) Plate working, machine processing, and forging of hydraulic power generator parts Parts are large, so large processing facilities are required Forging type is ring forging (∅1700 x t15 mm) (3) Tank coating for power stations Pretreatment facilities (blast or parker), spray-coating, natural drying Tank size from ∅500 to ∅1520 mm, L.1000 to 10000 mm 		
Desired characteristics, etc.			

Company Overview and Order Details No.14

Company name	Hashimoto Metal Industry Co., Ltd.		
Address	1-11, Minamifutami, Futami-cho, Akashi, HYOGO, 674-0093		
Capital stock (JPY)	33,000,000	Number of employees	160
URL	https://www.ujs.co.jp/		
Major products and machining services	Production of unit products for heat pump water heaters (water control valves, heat exchangers, etc.) and metal/resin machined parts		
What we want to order (products/processing)	<ul style="list-style-type: none"> ① Brass forged parts cutting (NC lathes, machining) ② Bar material cutting (brass, copper, SUS, etc.; including combined processing, diameter 40 or less; length 150 or less) ③ Iron casting cutting (length up to 1500, for robot arms) ④ Resin molding (180 T to 600 T mold injection, mainly engineering plastic such as PPS) ⑤ Pipe machining (copper, stainless steel) ⑥ Processes from automatic machinery design to manufacturing (from conception to installation, mainly assembly and inspection machinery) ⑦ Valve assembly (around 15 parts) 		
Required facilities and personnel	Standing/horizontal machining center, NC lathes and other machine tools, molding machine, NC vendor Brazing machinery		
Major products and machining services	<ul style="list-style-type: none"> • Company operating in compliance with ISO9001/14000 • Even better if company has a site overseas for molded goods (overseas: China, Vietnam, Thailand) 		

Company Overview and Order Details No.15

Company name	HANAOKA CORPORATION		
Address	(〒) 101-0032 Hanaoka bldg. 3-9-1 Iwamotocho, Chiyoda-ku, Tokyo		
Capital stock (JPY)	50,000,000	Number of employees	43
URL	http://www.hanaoka-kk.co.jp/		
Major products and machining services	Sales of copper expanded goods and metal machined parts (formed and fabricated materials, OEM) <ul style="list-style-type: none"> • Many palm-sized NC lathe and MC machined parts in lots from around 10 to 1000. • Provides integrated support for formed and fabricated materials, up to raw materials, machining, and surface preparation. Delivers products to customers. 		
What we want to order (products/processing)	① NC compound lathe and MC machined parts Details: Zinc die-cast and iron, copper, aluminum, stainless steel cutting Characteristics: Company that can handle everything from materials to machining and surface preparation Quantity: From small to medium lots (around 100 to 5000 pcs.) and company that is expert at handling multiple item numbers ② Company capable of handling small quantity, high variety production for iron shaft machining (from ø15 to 30) and black oxide finishing		
Required facilities and personnel			
Desired characteristics, etc.	<ul style="list-style-type: none"> • Seeking business partner for long-term relationship. • Seeking company with strengths in small quantity, high variety production. 		

Company Overview and Order Details No.16

Company name	HIKAWA MANUFACTURING CO., LTD.		
Address	3168 Hikawacho Shobara, Izumo-shi, Shimane 699-0502		
Capital stock (JPY)	48,000,000	Number of employees	170
URL	http://www.hikawaseiko.co.jp/		
Major products and machining services	<ul style="list-style-type: none"> • Precision parts (industrial sewing machine parts, etc.) • Automotive parts, motorcycle parts (valve rocker arms, etc.) • Compact engine parts • Machine tools (vertical high-speed automatic honing machines, other specialized machinery) 		
What we want to order (products/processing)	<p>For machine tool parts:</p> <p>① Machine processing to heat treatment to surface preparation Want completed goods delivered (okay to use outside ordering) Size: From small to large (edged up to 2000, round up to $\varnothing 100$)</p> <p>② Precision parts machining Machining tolerance ± 0.01, geometric tolerance 0.01 to 0.02 Size: From small to large</p> <p>③ From plate working to machine processing Size: Over 2 m</p> <p>Materials (for (1), (2), and (3)): Iron, aluminum, stainless steel, etc. Quantity: Mainly single items</p>		
Required facilities and personnel	Machining center, NC lathe, surface grinder, cylindrical grinder, 3D measuring machine, five-face machining equipment		
Desired characteristics, etc.	<ul style="list-style-type: none"> • Engaged in quality assurance efforts • Handles surface preparation 		

Company Overview and Order Details No.17

Company name	FURUKAWA CO., LTD.		
Address	6-4, Otemachi 2-chome, Chiyoda-ku, Tokyo Japan 100-8370		
Capital stock (JPY)	282,081,800,000	Number of employees	2,755
URL	https://www.furukawakk.co.jp/		
Major products and machining services	<ul style="list-style-type: none"> • Industrial machinery (pumps and crushers), tunnel drills and hydraulic breaker rock drills used in excavating tunnels, UNIC cranes (truck-loaded cranes), copper, electronic materials, etc. 		
What we want to order (products/processing)	<p>Parts used in mining machinery, industrial machinery, etc.</p> <p>(1) Hydraulic shovel parts and similar items</p> <ul style="list-style-type: none"> • Brackets (up to 800 x 800 x 800) • Long boom frames (up to 1,500 x 1,800 x 1,500 H) • Booms (up to 2,000 L hydraulic shovels and similar) • Hydraulic oil, fuel tanks (400 L or less), etc. • Engine covers (up to 2,500 x 1,700) <p>(2) Cylinder bolts for breakers</p> <p>(3) For hydraulic piping</p> <ul style="list-style-type: none"> • For crawlers, jumbo tunnel excavators, etc.: <li style="padding-left: 40px;">Pipe material (from ø50 to 1,000 L) flanges, with bosses <p>Materials for (1) to (3); Mainly SS400</p>		
Required facilities and personnel	Automated laser cutter, welding machine (robot), NC lathe, milling machine (compound), MC, boring facing-and-drilling machine, forging machine, etc.		
Desired characteristics, etc.	<ul style="list-style-type: none"> • Company with technology to submit CD proposals for structural changes and changes to manufacturing methods (switch to casting, etc.) for parts • If possible, company with experience manufacturing construction machinery parts, as there are many parts similar to construction machinery 		

Company Overview and Order Details No.18

Company name	Howa Machinery, Ltd.		
Address	452-8601 Aichi-ken, Kiyosu-shi, Sukaguchi 1900-1		
Capital stock (JPY)	9,019,000,000	Number of employees	701
URL	https://www.howa.co.jp/		
Major products and machining services	Machine tools and specialized machines Pneumatic and hydraulic equipment (chucks, rotary hydraulic cylinders, rodless cylinders)		
What we want to order (products/processing)	<ul style="list-style-type: none"> • Metal machined parts (better if abrasive machining is an option; size small enough to be delivered by courier services) • All varieties of resin molded parts (cylinder parts, products smaller than palm-sized, several hundred per lot, from metal molds) • Sheet metal and plate products (for machine tools and specialized machines) 		
Required facilities and personnel	<ul style="list-style-type: none"> • Lathe, MC, cylindrical grinder, internal grinder Quenching equipment, plating equipment • Resin mold equipment and metal molds • Sheet metal and plate working equipment 		
Desired characteristics, etc.	<ul style="list-style-type: none"> • If possible, capable of everything from acquiring materials to completing shaved products 		

Company Overview and Order Details No.19

Company name	Mitaka Seiki Co., Ltd.		
Address	4-5-19 Bijogi, Toda-shi, Saitama, 335—0031		
Capital stock (JPY)	10,000,000	Number of employees	15
URL	http://www.mitakaseiki.co.jp/		
Major products and machining services	Semiconductor manufacturing equipment, Measuring instrument, Medical equipment, Food manufacturing, Communication equipment, and other industrial machine parts processing		
What we want to order (products/processing)	1) Lathe processed products (Φ300~850 SS, Aluminum, Stainless steel material, high-mix low-volume production) 2) Welding and MC machining (Size enough to be carried by hands, SS, Aluminum, Stainless steel material, high-mix low-volume production)		
Required facilities and personnel	NC lathe, MC, etc.		
Desired characteristics, etc.	<ul style="list-style-type: none"> • Prompt reply to estimate request • Delivery date management 		

Company Overview and Order Details No.20

Company name	Minato Engineering Co., Ltd.		
Address	1-7-21 Sengendaihigashi, Koshigaya-shi, Saitama 343-0042		
Capital stock (JPY)	10,000,000	Number of employees	45
URL	https://mec-s.com/		
Major products and machining services	Design and manufacturing of industrial machinery <ul style="list-style-type: none"> • Food machinery (concentration plants, static mixers) • Recycling plants (RDF facilities, can presses) • SUS/SS plate working and factory construction 		
What we want to order (products/processing)	For above industrial machinery: <ol style="list-style-type: none"> ① SS, SUS, and titanium machine processing ② Company capable of plastic and rubber cutting (high variety, small quantity production) ③ Sheet metal machining (iron, SUS) ④ Production of automated food machinery lines 		
Required facilities and personnel			
Desired characteristics, etc.	<ul style="list-style-type: none"> • Must be capable of providing quality control and meeting deadlines • Must have experience producing food machinery • Must be able to handle single items 		

Company Overview and Order Details No.21

Company name	MORITANI & CO., LTD.		
Address	(〒) 103-8680 1-4-22 Yaesu, Chuo-ku, Tokyo		
Capital stock (JPY)	810,000,000	Number of employees	500
URL	https://sales.moritani.co.jp/		
Major products and machining services	Machinery-related sales company • Industrial machinery, electric/electronic equipment, environmental preservation equipment, measurement/inspection equipment, transportation/transport equipment, iron and steel and non-ferrous metals, environment-related, etc.		
What we want to order (products/processing)	① Stainless steel tanks (class 2 pressure vessels) (around ø2000, may be larger) ② Stainless steel stages ③ Lining tanks (glass/PTPF) ④ Blade manufacturing (blade width 340 mm, even better if capable of blade edge coating, etc.)		
Desired characteristics, etc.			

Company Overview and Order Details No.22

Company name	Rikodenki Co., Ltd.		
Address	5-22-37 Higashigotanda, Shinagawa-ku, Tokyo-to 141-0022		
Capital stock (JPY)	30,000,000	Number of employees	125
URL	https://rikohdenki.jp/company/companyoutline/		
Major products and machining services	Subcontracted production of electronic components and electronic equipment, precision cutting, all varieties of cable harness machining, production of MIL standard connectors, design and manufacturing of completely automated assembly/inspection/packing equipment, design and manufacturing of control panels, robot control development and design and manufacturing of robotic hands (SIer member), design and manufacturing of jigs and tools, sheet metal welding and coating (Miyagi Factory)		
What we want to order (products/processing)	<ul style="list-style-type: none"> ① Precision cutting Round and edged ultra-hard materials, difficult-to-cut materials, etc. (many are palm-sized) ② Cable harness machining (soldered/crimped) ③ Robot control development (element technology), design and manufacturing of robotic hands ④ Design and manufacturing of automation equipment and labor-saving equipment 		
Required facilities and personnel	Please list your production facilities corresponding to (1) above. Please list your applicators corresponding to (2) above. Please list as much as possible your experience with (3) and (4) above.		
Desired characteristics, etc.	<p>(1) We would like you to submit a list of your facilities, etc.</p> <p>(2) We would like you to indicate whether you have applicators.</p> <p>(3) and (4) We would like you to list your experience as much as possible.</p> <p>We will have you sign an agreement if we are to begin doing business.</p>
